Purpose of this document;

The purpose of this policy document is to set out the Company's commitment with regard to environmental protection. It affords a publicly available, endorsed statement indicating the scope, commitment and objectives of management in regard to this topic.

The policy summarises the Company's methods of controlling waste and managing its activities in such a manner as to reduce environmental effects and comply with all relevant regulatory requirements.

Statement of Managements Commitment;

The company recognises that environmental issues are of fundamental importance in a successful and responsible business strategy.

We will take any reasonable practicable steps to prevent, minimise or render harmless the effect of operations, activities and products on the environment.

Statement of Company Policy;

The Company is committed to ensuring that its operations comply the existing legislation.

The Company aims to prevent, minimise or render harmless the effects of its activities and products on the environment.

The Company will strive to use products which have the minimum environmental impact during use and subsequent disposal.

Management is aware both of its duty of care as far as current legislation is concerned and also of its long term duty towards the planet and future generations.

The Company supports such actions as The Montreal Protocol, The Rio Earth Summit and The Kyoto Enterprise to prevent or minimise activities which may affect global temperatures, lead to depletion of the ozone layer, produce acid rain or otherwise disrupt and exhaust the Earth's life support systems.

The Company will manage its use of primary energy sources in such a manner as to ensure efficient utilisation in all departments.

Systems have been adopted to minimise waste and adequately control on-site consolidation and waste disposal activities. The Company controls its water usage.

The Company undertakes to consider any reasonable comments from and provide information to site neighbours regarding its activities. Resources will be allocated in order to implement this policy.

The Company undertakes to train and educate its workforce in the relevant aspects of environmental best practices, and will seek expert guidance from other parties where necessary.

Allocated Responsibility;

The Directors accept policy objectives and co-operate to comply with them. Employees will ensure that Company objectives are fulfilled.

Signed;

Mark Stephen Caslin (Director)
