Tel: 01925 445 222  
Mob: 07999 487 925**

### **General:**

As a pest control company we are committed to take any reasonable, practicable steps to ensure:

- (1) The health, safety and welfare at work of all company employees, and
- (2) The health and safety of all persons other than company employees who may be affected by company operations, whether they are at work or not.

### **Health and Safety at Work Etc. Act 1974:**

As a company we understand our general duty of care under this Act and also the specific duty under section 6 to provide information to customers concerning products used in pest control operations. We have fulfilled our duties under sections 2, 3 and 4 of the 1974 Act in respect of the provisions of the Management of Health & Safety at Work Regulations 1992.

### **The Control of Pesticides Regulations 1986 and 1987:**

We are committed to fulfilling our obligations under these regulations in respect of our activities in storing, supplying and using pesticides. Particularly, we will take all reasonable precautions, with regard to storage and transport, to protect the health of human beings, creatures and plants and to safeguard the environment. We recognise the need for adequate training of employees to ensure they are competent for the duties they will be called upon to perform.

### **Environmental Protection Act 1990:**

We are aware of our general duty of care regarding the environment and particularly the disposal of waste materials.

### **The Control of Substances Hazardous to Health Regulations 2002 (COSHH)**

We have implemented the relevant sections of these regulations which cover the following areas:

- assessment of risk
- provision of control measures
- use and maintenance of control resources
- provision of information, instruction and training
- monitoring of exposure
- health surveillance

Product safety data sheets for all our products used in our pest control activities are on file.

Records of our day to day pest control operations are being kept and employees have been trained according to our activity needs.

We have completed and been awarded the LEVEL 2 CERTIFICATE IN PEST MANAGEMENT FROM THE ROYAL SOCIETY FOR PUBLIC HEALTH. We have attended specialist courses in various disciplines of the industry, and have full access to technical backup from KILLGERM CHEMICALS LTD a company giving both biological and chemical technical support.
